

In the Specification:

On page 8, amend the paragraph beginning on line 7 and the paragraph beginning on line 11 as follows:

FIG. 5 is a logic diagram illustrating operation for using cell-pair RF isolation data measured according to the present invention to create an isolation matrix and to use the isolation matrix for RF reuse engineering; ~~and~~

FIG. 6 is a system diagram illustrating a cellular wireless communication system within which operation according to the present invention may be employed; and

FIG. 7 is a block diagram illustrating a system-engineering server constructed according to the present invention.

On page 22, amend the paragraph beginning on line 20 as follows:

FIG. 7 is a block diagram illustrating a system-engineering server 700 constructed according to the present invention ~~that provides at least a portion of the functions of the virtual assistant system.~~ The SES 700 may be general-purpose computer that has been programmed and/or otherwise modified to perform the particular operations described herein. However, the SES 700 may be specially constructed to perform the operations described herein. In particular, the SES 700 may be the SES 640 shown in FIG. 6 that executes some, or all of the operations described in FIGs. 3-5. Alternately, the SES 700 may form a portion of one of the MSCs 602 and 616 of FIG. 6.
